CLASS FEATURES

Mighty Leaps

You can't obtain lower than a tier 2 outcome on any Might test made to jump.

Unstoppable Force

Whenever you use the Charge main action, you can use a strike signature ability or a strike heroic ability instead of a free strike. Additionally, you can jump as part of your charge.

Immovable Object

You add your level to your effective size for the purpose of interacting with creatures and objects, including determining whether you can lift an object, are affected by forced movement, and so forth. This has no effect on whether you can be grabbed.

Primordial Strength

Whenever you damage an object with a weapon strike, the strike deals extra damage equal to your Might score. Additionally, whenever you push another creature into an object, the creature takes extra damage equal to your Might score.

Each enemy in the area

Power Roll + 2

≤11 6 damage; push 3

12-16 9 damage; push 5

17+ 17 damage; push 7

Effect:

The targets are force moved one at a time, starting with the target nearest to you, and can be pushed into other targets in the same line.

HEROIC ABILITY

YOU ARE ALREADY DEAD

7
COST

Slash. Walk away.

Melee, Strike, Weapon

Main Action

Melee 1

One creature

Effect:

If the target is not a leader or solo creature, they are reduced to 0 Stamina at the end of their next turn. If the target is a leader or solo creature, you gain 3 surges and can make a melee free strike against them.

MANEUVER

FRIEND CATAPULT

You hurl your ally through the air.

Self

Maneuver

Self

Effect:

You grab a willing adjacent ally or object of your size or smaller, then vertical push that target up to a number of squares equal to twice your Might score. If a creature you push falls as a result of this movement, the effective distance of the fall is reduced by a number of squares equal to twice your Might score. When you use this perk, you can't use it again until you earn 1 or more Victories.

NOTES

OTHER FEATURES & REFERENCE

BERSERKER

Primordial Strength

Whenever you damage an object with a weapon strike, the strike deals extra damage equal to your Might score. Additionally, whenever you push another creature into an object, the creature takes extra damage equal to your Might score.

As your ferocity grows, you gain benefits as noted on the Berserker Growing Ferocity table. Benefits are cumulative except where an improved benefit replaces a lesser benefit.

Ferocity 2: Whenever you use the Knockback maneuver, the forced movement distance gains a bonus equal to your Might score.

Ferocity 4: The first time you push a creature on a turn, you gain 1 surge.

Ferocity 6: You gain an edge on Might tests and the Knockback maneuver.

HIDING

To hide from a creature, you must have cover or concealment from that creature (see Chapter 10: Combat), who can't observe you attempting to hide. A creature is observing you if they're aware of your specific location before you attempt to hide. This means they can pinpoint you with their senses and point a finger (or paw or tentacle) at you as if to shout, "There they are!" If you duck behind a barrel to hide from a foe, your attempt to hide has a chance of succeeding only if your foe doesn't notice you doing so. If you're being chased by a hungry dragon, you can hide only if you first move to a location where the dragon can't observe you—for instance, by turning a sharp corner into a tunnel full of giant stalagmites before the dragon does. You then make your hide attempt.

When you use the Hide maneuver to hide during combat while you have cover or concealment from a creature who isn't observing you, you are automatically hidden from them unless the Director deems otherwise. If you hide outside of combat, the Director might ask you to make a test using the Hide skill to determine how well hidden you are.

While you are hidden from another creature, the creature can't target you with abilities that don't have the Area keyword. This benefit ends as soon as you are no longer hidden from that creature.

Additionally, while you are hidden from another creature, you gain an edge on ability rolls made against that creature. This benefit lasts until the end of the turn in which you are no longer hidden. This means you can be hidden from another creature at the start of your turn, move out of cover or concealment toward them and use an ability against them, and still gain an edge on ability rolls made against the creature as long as you use the ability before the end of that turn.

You are no longer hidden from a creature if you don't have cover or concealment from them. If you use an ability, interact with an enemy, move without sneaking, or otherwise make noise or reveal yourself while hidden, you are no longer hidden once the activity that reveals you resolves. For instance, if you are hidden and then make a strike, you resolve the strike first, then are no longer hidden.

Searching for Hidden Creatures You can search for creatures who are hidden from you as long as those creatures are within 10 squares and you have line of effect to them. To do so, you use a maneuver to make an Intuition test using the Search skill, and any hidden creatures within 10 squares of you each make an opposed Agility test using the Hide skill (see Opposed Power Rolls earlier in this chapter). At the Director's discretion, different characteristics and skills can be used in this opposed test. For example, your foe might make a Presence test using the Handle Animals skill to hide among a flock of sheep without disturbing them, or you could make a Reason test using the Eavesdrop skill to pick out the breathing of a creature hidden in the dark.

If the total of your test is higher than that of a hidden creature, they are no longer hidden from you. Otherwise, they remain hidden from you. As part of the maneuver used to search for hidden creatures, you can point out any creatures you notice to allies within 10 squares of you, making those creatures no longer hidden from those allies.

If a creature is hidden from your allies but not from you, you can use a maneuver without making a test to point that creature out to your allies.

CLIMBING / SWIMMING

A creature who has "climb" in their speed entry, or who gains the temporary ability to automatically climb, can climb across vertical and horizontal surfaces at full speed. Likewise, a creature who has "swim" in their speed entry, or who gains the temporary ability to automatically swim, can swim in liquid at full speed.

Creatures without those types of movement can still climb or swim when a rule allows them to move, but each square of climbing or swimming costs 2 squares of movement. If a surface is difficult to climb (for instance, a sheer cliff or ice-covered wall) or a liquid is hard to swim through (a raging river or whirlpool), the Director can call for a Might test. On a failure, a creature can't climb or swim but wastes no movement in the attempt. The Director can also impose other consequences to failure, such as being caught in the spinning current of a whirlpool.

Climbing other Creatures: You can attempt to climb a creature whose size is greater than yours. If the creature is willing, you can climb them without any trouble. If the creature is unwilling, you make the following test:

Power Roll + Might or Agility:

Roll	Effect
≤11	You fail to climb the creature, and they can make a free strike against you.
12-16	You fail to climb the creature.
17+	You climb the creature.

While you climb or ride a creature, you gain an edge to melee abilities used against them. The creature can use a maneuver to attempt to knock you off, forcing you to make the following test:

Power Roll + Might or Agility:

Roll	Effect
≤11	You fall off the creature into an unoccupied adjacent space of your choice, taking falling damage and landing prone as usual.
12-16	You slide down the creature into an unoccupied adjacent space of your choice and don't land prone.
17+	You continue to hold on to the creature.

If you are knocked prone while climbing or riding a creature, you fall and land prone in an adjacent space of your choice, taking damage as usual from the fall.

SNEAKING

While you are hidden from another creature and not in combat, you can attempt to sneak—avoiding the senses of other creatures as you move around them in the open—to remain hidden. While sneaking, your speed is halved. To sneak, you make an Agility test using the Sneak skill with a difficulty set by the Director. If you succeed, you remain hidden during your movement. This test can use another characteristic at the Director's discretion, such as using Presence to blend in with a crowd on a packed city street.
